Airbus Defence and Space is a division of Airbus Group formed by combining the business activities of Cassidian, Astrium and Airbus Military. The new division is Europe’s number one defence and space enterprise, the second largest space business worldwide and among the top ten global defence enterprises. It employs some 40,000 employees generating revenues of approximately €14 billion per year.

Airbus Group is a global leader in aerospace, defence and related services. In 2013, the Group - comprising Airbus, Airbus Defence and Space and Airbus Helicopters – generated revenues of € 59.3 billion and employed a workforce of around 144,000.

(The legal name change from European Aeronautic Defence and Space Company EADS N.V. ("EADS N.V.") to Airbus Group N.V. is subject to the approval of the Annual General Meeting).

Description of the job

Are you looking for a working student position? Would you like to support within Information Technology? Then apply now! We look forward to you joining us at the department Business Community Management in Friedrichshafen from July 2015 for 4-6 months (20 hours/week, flexi-time).

The start date is flexible.

Working students are students who are enrolled at an university/university of applied sciences etc. and who are employed in a reasonably long, fixed-term position in parallel to their studies. It must not be confused with an internship or with the possibility of writing a final thesis. This employment usually takes place directly on the company's premises. A working student's main focus remains their studies, which is why, during term-time, working students are not allowed to work more than 20 hours per week. Working students therefore usually work near their place of study, so that they can combine studying and employment.

The mission of the department Business Community Management is to provide process, governance and tools throughout Airbus Defence & Space to support all sales & marketing forces in expanding business in efficient ways and ensuring the profitability of individual campaigns.

Tasks

Your role will involve the following exciting tasks:

- Familiarization with capabilities of MS Sharepoint in Airbus Defence and Space
- Analysis of input/information present in Sales Operations
- Analysis and consolidation of requirements for a MS Sharepoint solution for Airbus Defence and Space
- IT constraints (security and IT rules)
- Implementation of finally agreed requirements into a MS Sharepoint solution
- Specification of implementation to be provided to IT
- Preparation and support for training, user guidance documentation
Skills

You offer:

- Enrolled student within Information Technology, Business Informatics or similar field of study
- Experience with MS Sharepoint
- English: Advanced

You are a good team player, have excellent communication skills, and are able to work independently.
