

## Declaration of independent work

Plagiarism is the copying or paraphrasing of other people's work or ideas without full acknowledgement. Rules of good scientific practice generally require that all sources and references have to be indicated by quotes. Intentional plagiarism may incur severe penalties, including failure of your degree.

(First name/Last name)

(Student ID)

I hereby declare that the attached term paper for the following class

--

(title/lecturer)

on the following topic

--

(Topic/title of the work)

is the result of my own, independent work. I have not used any aids or sources other than those I have referenced in the document.

If I have used text-generating AI tools as aids, I understand that I am solely responsible for the accuracy of the content of the AI-generated text passages, as well as for referencing other people's wording and ideas in accordance with the principles of good scientific practice.

I have identified all passages that have been quoted or paraphrased from other works written by natural persons (also taken from the Internet or other electronic collections of texts and data) by referencing the source or secondary literature in line with the citation guidelines for my subject. Failure to do so constitutes plagiarism.

I will also submit the term paper electronically to the lecturer. Furthermore, I declare that the above-mentioned work has not been otherwise submitted as a term paper.

I am aware that papers that turn out to be plagiarized will be graded "insufficient" (5,0). Every suspected case of plagiarism will be submitted to the examination board, which will decide on further sanctions. For repeated or otherwise serious fraud or plagiarism cases, the Examination Board may decide to deny the candidate permission to re-sit the examination, resulting in a complete loss of right to examination. The legal basis for this procedure can be found in the respective examination regulations of all study programmes.
