Company description :
SAP is the world leader in enterprise applications in terms of software and software-related service revenue. Based on market capitalization, we are the world’s third largest independent software manufacturer. Browse company facts and information below.

Job description :

COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

PURPOSE AND OBJECTIVES
More than ever, developers need the right attitude and skills to build and quickly extend business applications and provide state-of-the-art technologies for our customers.

Our development team is working on management of container-based business applications in close collaboration with Kubernetes developers and business application developers. This guarantees regular new opportunities to grow as we are providing solutions on public cloud, hybrid or private cloud infrastructures for a variety of enterprise use cases.

If you are interested in cloud development based on cutting-edge technology, you will find an inspiring and professional environment for your learning and growth. You will be working in a Scrum Team located in Walldorf. We emphasize teamwork and a trust-based working model. Collaboration with other teams in an international environment will be a regular part of your work.

EXPECTATIONS AND TASKS
We are looking for a developer who …

loves agile development principles and practices
is eager to deeply analyze and understand distributed software systems
is enthusiastic about learning new technologies

As a developer in our team you will …

design, develop, deploy and run services for container-based software
develop robust, scalable and understandable software
automate testing, deployment and configuration of software
share your knowledge regularly with other colleagues

We are looking for a strong, self-motivated, reliable and analytical team player and proactive networker, who leads by example and knowledge.

**Required profile:**

**EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES**

* Required
  * Strong university degree (bachelor, diploma, master, PhD) in computer science or related fields like software engineering, physics or mathematics. Similar qualifications are welcome as well.
  * Strong knowledge in at least two programming languages, Go, Java or node.js preferred
  * Experience with Cloud Foundry, Kubernetes, OpenStack, Amazon Web Services, Microsoft Azure or Google Cloud Platform and strong experience with Unix/Linux
  * Experience with test-driven development, pair programming, knowledge in using Git
  * Curiosity and track record to understand and learn new technologies, concepts and tools
  * Strong communication skills in German and English language, with good interpersonal skills

* Preferred
  * Expertise and readiness to analyze issues on multiple layers ranging from applications, services to operating system level at design and runtime

**WORK EXPERIENCE**

At least two years of experience in software development

**WHAT YOU GET FROM US**

Success is what you make it. At SAP, we help you make it your own.

A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

**SAP’S DIVERSITY COMMITMENT**

To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.

SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers.NorthAmerica@sap.com or Careers.LatinAmerica@sap.com, APJ: Careers.APJ@sap.com, EMEA: Careers@sap.com).

Successful candidates might be required to undergo a background verification with an external vendor.
