Job description :
Requisition ID: 187904
Work Area: Information Technology
Location: Walldorf/St. Leon-Rot
Expected Travel: 0 - 10%
Career Status: Professional
Employment Type: Regular Full Time

COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.
SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

PURPOSE AND OBJECTIVES
Within the Product & Innovation (P&I) board area, the mission of the SAP HANA Enterprise Cloud (HEC) Delivery (MCD) organization is to run and operate SAP’s private cloud offering. Isolated private cloud landscapes are built for customers both in SAP owned datacenter as well as on IaaS infrastructure provided by hyperscalers like Microsoft Azure, Google Cloud Platform or Amazon Web Services (AWS). HEC delivered services include backups, patching, provisioning and upgrades, restore and recovery, infrastructure monitoring and event detection. Services are delivered from all regions (EMEA/MEE/AMER/APJ) having a strong international focus and cultural diversity.
As part of HEC Delivery, the Delivery Architecture and Automation team focuses on streamlining architecture of tools and services across the various teams in order to increase efficiency, quality and innovation.

EXPECTATIONS AND TASKS
As IT Architecture Expert you will be responsible for:

Collaborating and aligning new concepts with international teams from within the MCD organization and outside to ensure excellent customer satisfaction.
Evaluating new tools, initiatives and requirements regarding optimal architectural, feasibility in desired timeline and synergies with already running projects
Assessing impact of new architecture, automation and tools projects on overall efficiency of Cloud Delivery as well as on SLA/quality risks
Creating action plans and moderating break-down of work packages into the different teams
Proper documentation, definition of technical operational concepts and guidelines
Mentoring and guiding junior members of the team.
Required profile:

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

Required
* Bachelor/Master degree in Information Technology, Computer Science or Engineering
* Solid know-how on SAP Technologies like SAP NetWeaver or HANA based systems.
* A naturally change-minded innovator, who questions the status quo and explores new ideas, realizes their value and makes them a reality
* Capacity to continuously acquire new knowledge in an independent, proactive way.
* Good analytical and solution oriented thinking.
* Very good communication, presentation and networking skills.
* Knowledge on project management methodologies like PMI or SCRUM
* Ability to work effectively in international and virtual teams.
* Fluent in English and German language

Preferred
* Knowledge on operating systems and network management
* Previous experience with public IaaS services such as Amazon AWS, Microsoft Azure, Google Cloud Platform
* Previous experience with IT Service Management and Infrastructure Automation tools such as SAP Solution Manager, SAP Service Provider Cockpit, BladeLogic, Chef, Service Now and others

WORK EXPERIENCE
6+ years work experience in Cloud Operations, Technology Support or Technology Development roles

WHAT YOU GET FROM US
Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company. SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers.NorthAmerica@sap.com or Careers.LatinAmerica@sap.com, APJ: Careers.APJ@sap.com, EMEA: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.
