Requisition ID: 135867
Work Area: Software-Design and Development
Location: Walldorf/St. Leon-Rot
Expected Travel: 0 - 10%
Career Status: Professional
Employment Type: Regular Full Time

COMPANY DESCRIPTION
SAP's vision is to help the world run better and improve people's lives. As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably.

At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You'll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you'll be able to get more out of your career. It's no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it's your turn to take the next step and help make the world Run Simple.

PURPOSE AND OBJECTIVES
The SAP Financials Operations Cloud is a collection of Cloud applications based on the Hana Cloud Platform (HCP). These applications are integrated with SAP products/networks and external solutions. To improve and simplify the processes for real-time payments between S/4 HANA components and external Payment Service Providers we will develop an integration platform.

You will work in a cross functional team applying the lean development model as well as methods of agile software development.

EXPECTATIONS AND TASKS
As (associate) developer you will
Contribute to the development of the payment integration platform using our latest Hana Cloud Platform technology
Participate in all phases and tasks within the Software Life Cycle
Apply agile software development approaches
Have the chance to continuously enhance your knowledge and keep up with latest technology trends
Will also get the opportunity to learn relevant business domain knowledge

In order to deliver first class results, you handle your tasks with enthusiasm and personal commitment. You have the ambition of building future-proof products and using state of the art technologies.
EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

Required skills
* Very good Bachelor’s or Master’s Degree in (business) informatics, natural sciences, or economics - or in a comparable field
* Good software development/programming skills: Any major programming language (preferably Java or JavaScript), experience in SQL is helpful
* High commitment to quality, reliability and a self-motivating style of working
* Excellent team player with a strong ability to network and with drive for tangible results
* Willingness and ability to learn new subjects quickly
* Fluent in German and in English

Preferred skills
* Functional and business process knowledge in Payment Processes or in eCommerce is a plus (however not required)
