CAReer Trainee Connectivity Security at Daimler Buses in Istanbul

CAReer – The Top Talent Program is the ideal start for a long-term career with Daimler. Being an entry-level professional training program, CAReer is targeted at university graduates or early professionals who want to get to know the company inside out and take on management and project responsibility early on. With this particular CAReer position, you will launch your future career in the department “Architectures & Processes”:

Mercedes-Benz Türk A.Ş. was established in 1967 in Istanbul as a joint venture of Daimler AG and has produced various bus and truck models in the last 50 years. Apart from the production facilities, development teams at Mercedes-Benz Türk A.Ş. have become an important part of Daimler AG.

Connectivity is a growing priority in our mobile life. You are fascinated by connectivity solutions. Take responsibility and co-develop these technologies in our vehicles by contributing your ideas, including with regard to the security aspect of connectivity. Solve technical challenges with innovative, customer-oriented hardware and software solutions.

Your responsibilities include
- Developing security concepts for the electric, electronic and mechatronic systems at Daimler Buses.
- Investigating and defining the functional and security requirements of vehicles.
- Serving as the point of contact and expert for the connectivity security solutions in vehicles.
- Proactively identifying potential security issues and performing penetration tests.

We expect from you
- An excellent university degree in information technology, computer science, software engineering, or equivalent (ideally as a Master degree)
- First professional work experience (18 months are obligatory with a Bachelor’s degree)
- Several months of solid experience abroad
- Excellent English language skills along with very good knowledge of Turkish and German
- You convince us with your personality and enjoy the management responsibility
