Hiwi position

A Hiwi position is available in Prof. Dr. Couzin's group. Hiwi's task is agent-based modeling, simulation, and data analysis. The position can entail coauthoring of papers out of the project, if the Hiwi provides significant contribution. The possibility of continuation of the project as a Bachelor's or Master's thesis exists.

Requirement: Experience with scientific computing. Knowledge of MATLAB is a plus.

Task: Agent-based simulation and data analysis.

When: The position can be started at any time for an initial period of 6 months with the possibility of extension.

Scope: 45 h/month
