COMPANY DESCRIPTION

SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

Job description :
Requisition ID: 217658
Work Area: Software-Design and Development
Location: Potsdam
Expected Travel: 0 - 10%
Career Status: Graduate
Employment Type: Regular Full Time

PURPOSE AND OBJECTIVES

Technology & Innovation (T&I) is responsible for SAP’s overall platform and technology development such as SAP Cloud Platform and SAP HANA. In addition, T&I drives the incubation and adoption of intelligent technologies like Analytics, SAP Leonardo Machine Learning and IoT across SAP’s product portfolio. The T&I board area is also in charge of SAP’s global innovation agenda and builds new business model- and market driven innovations to help customers realize the most business value.

For this position, we are looking for highly motivated people, who are eager to explore unconventional ideas, develop inspiring proofs of concepts, and create added value for SAP and our customers with leading edge technology. Agility, flexibility and creativity are key attributes to stay ahead in this fast-paced environment.

EXPECTATIONS AND TASKS

As a (Junior) Developer for Strategic Projects / Exploration, you will be part of a technology-focused team that is built to shape the future generations of SAP software.

What will you do in this team?

Try to push the potential of different technologies, define and implement prototypes and solve software engineering challenges that come across with latest topics.

Drive a portfolio decision if and how to invest in a topic.

Identify and talk to experts in the specific topic area and drive SAP’s presence.

This is an ideal role for a very focused and ambitious individual who is able to work in a high-pressure environment. At SAP, we have diversity at heart, so you will also be able to work with the brightest minds from a multitude of cultural and ethnical backgrounds.

WORK EXPERIENCE

We look for risk-takers, collaborators, the inspired and the inspirational. We need people who are brave enough to work at the cutting edge and create solutions that will enrich and improve people’s lives.

Your application documents should contain a cover letter reviewing your experiences and your interest, your
CV, copies of your degrees and copies of references from your former employers. PhD graduates are welcome to apply!

WHAT YOU GET FROM US
Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.
