Company description:
COMPANY DESCRIPTION
SAP’s vision is to help the world run better and improve people’s lives. As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably.

At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You’ll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you’ll be able to get more out of your career. It’s no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it’s your turn to take the next step and help make the world Run Simple.

Job description:
Requisition ID: 237044
Work Area: Software-Design and Development
Location: Potsdam
Expected Travel: 0 - 20%
Career Status: Professional
Employment Type: Regular Full Time

PURPOSE AND OBJECTIVES
The Innovation Center Network is a development unit within SAP, combining software engineering excellence with entrepreneurial spirit. Across various focus areas we pioneer game-changing solutions in close collaboration with startups, customers & partners in industry, and research as well as other SAP units. By exploring unconventional ideas and developing inspiring proofs of concepts, we push the state of the art in computer science and its applied fields to provide SAP with foresight into future trends.

The mission of SAP’s Innovation Center Network is to create new growth businesses for SAP by pioneering new markets and disruptive technologies. As part of this endeavor, the Innovation Center Network explores new business cases based on Blockchain technologies. In a flexible and fast manner, the newly founded Blockchain team, build from developers, designers, architects, and business developers comes up with tangible solutions for this high-priority inquiry.

WORK EXPERIENCE
We are looking for an outstanding individual with professional work experience of up to three years in software development. Graduates are welcome to apply!

Your application documents should contain a cover letter reviewing your experiences and your interest, your CV, copies of your degrees (university, apprenticeship, high school) and copies of references from your former employers (if available).
LOCATION
Potsdam - There is a shuttle for SAP employees running from Berlin to Potsdam and back every day.

WHAT YOU GET FROM US
Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.

Required profile:

EXPECTATIONS AND TASKS
Join the SAP Innovation Center as a (Associate) Full-Stack Developer (f/m/d) in a team focusing on Blockchain technology, use-cases & exploration. You will be part of a technology-focused group that is built to creatively engineer new solutions applying Blockchain and its concepts to business applications for SAP while working in a startup-like environment and atmosphere. You will have the great opportunity to shape new projects from the ground up working closely with internal and external customers on real-world challenges. Your ability to produce quality code and strength in combining engineering excellence with a strong interest for the latest technologies make you an ideal fit for this position. Experience with Blockchain is no must-have, but your ability to explore and understand new technologies will enable you to become an expert quickly. This is an ideal role for a very focused and ambitious individual who is able to work in a high-pressure environment. At SAP we have diversity at heart, so you will also be able to work with the brightest minds from a multitude of cultural and ethnical backgrounds.

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES
Required skills
* University degree in computer science, mathematics, engineering, or a related field.
* A solid foundation in data structures, algorithms, databases, and software design.
* Excellent development skills in but not limited to Golang, Java or JavaScript.
* Reliable and open-minded with strong team working skills, determined to reach a goal in time.
* Fluent English and preferable German language skills - written and verbal.

Preferred skills
* Experience with Distributed Ledger Technologies such as Ethereum and their layer 2 extensions.
* Knowledge in development of distributed parallel, transactional, or multi-tenant systems.
* Experience in developing with container technologies such as Docker and Kubernetes, and cloud development on GCP, AWS, Azure, or SAP Cloud Platform.
* Solid understanding of cryptography as e.g. zero-knowledge proofs or homomorphic encryption.
