**Type of contract:** Permanent  
**Localisation:** Walldorf 69190, DE  
**Contract duration:** Undefined  
**Level of studies:** Bachelor's Degree  
**Years of experience:**  
**Company description:**
COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

**Job description:**
Requisition ID: 241820  
**Work Area:** Software-Design and Development  
**Location:** Walldorf  
**Expected Travel:** 0 - 10%  
**Career Status:** Professional  
**Employment Type:** Regular Full Time  

**About the team**

With the development of Integrated Business Planning, Supply Chain Planning Engineering has developed one of the most successful SAP cloud products and recently won the SAP Product Excellence Award. Together with S/4HANA Produce being a key pillar of SAP’s strategy, both teams will form the future of SAP’s Planning and Produce applications. This will give you the opportunity to benefit from further growth of Production Planning and Detailed Scheduling.

**The Role**

We are looking for a motivated (Associate) Development Architect (f/m/d) who wants to shape modern supply chain planning solutions and benefit from permanent growth. The main technologies currently used are SQLScript, CDS models, Fiori and ABAP in a cloud architecture. Changing technologies and system environments require your flexibility and will provide you the opportunity to try out something new.

You will be part of a development scrum team and enhance the PP/DS application, owning the PP/DS architecture in the scrum team.

You will collaborate closely with the IBP product management and S4 scrum teams in different locations. As we are a customer-driven organization, you will help shaping the product with internal and external stakeholders.

**WHAT YOU GET FROM US**

Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of
purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company. SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.
