Company description :

COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.
SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

Job description :
Requisition ID: 238428
Work Area: Software-Design and Development
Location: Potsdam
Expected Travel: 0 - 10%
Career Status: Graduate
Employment Type: Regular Full Time

PURPOSE AND OBJECTIVES
Technology & Innovation (T&I) is responsible for SAP’s overall platform and technology development such as SAP Cloud Platform and SAP HANA. In addition, T&I drives the incubation and adoption of intelligent technologies like Analytics, SAP Leonardo Machine Learning and IoT across SAP’s product portfolio. The T&I board area is also in charge of SAP’s global innovation agenda and builds new business model- and market driven innovations to help customers realize the most business value. You will be a member of the Cloud Programming team of T&I Central Engineering which is building a master data service for the business technology platform of SAP.

EXPECTATIONS AND TASKS
Design and build functionality of highly distributed system balancing costs, performance, and availability.
Explore, understand, and implement most recent technologies.
Contribute to open source software within the eco-system.

WHAT YOU GET FROM US
Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT
To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable
accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.

**Additional Locations:**

**Required profile:**

**EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES**

* Bachelor’s degree in computer science, mathematics, or closely related field (Master’s degree, preferred).
* Very good programming skills and a solid foundation in computer science with strong competencies in data structures, algorithms, databases, and software design.
* Solid understanding of functional and object-oriented programming concepts.
* Good knowledge in ReasonML, Scala, Java, C++, or similar programming languages.
* Good understanding of distributed systems.
* Strong analytical skills.
* Reliable and open-minded with strong team working skills, determined to reach a goal in time as well as the ability to work independently and to prioritize.
* Ability to get quickly up-to-speed in a complex, new environment.
* Proficiency in spoken and written German and English.

Your set of application documents should contain a cover letter, a resume in table form, copies of any academic degrees, and if available, references from former employers. Please describe your experience and skills in foreign languages and computer programs / programming languages.
