Company description :
COMPANY DESCRIPTION
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.
SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

Job description :
Requisition ID: 236367
Work Area: Software-Design and Development
Location: Walldorf
Expected Travel: 0 - 10%
Career Status: Professional
Employment Type: Regular Full Time

About the team
As part of the Board Area Intelligent Enterprise Group the Governance, Risk and Compliance (GRC) development team builds solutions that help our customers to streamline existing GRC processes, address regulatory requirements and reduce risk during their digital transformation.
We are building the future generation of GRC solutions as cloud native applications. Our group develops new solutions and services to support our customers in addressing and handling global foreign trade requirements. The solutions are planned to leverage Global Trade Services, S/4HANA and SAP Cloud Platform as development environment and we want YOU as the (Associate) Developer (m/f/d) to work on new technologies and processes.

The Role
Your responsibility as a (Associate) Developer (m/f/d) will cover all stages and tasks within the entire software development cycle at SAP, including the overall responsibility for your code through design, implementation, test automation, continuous integration and deployment.
Depending on your level of experience you will lead and contribute to efforts around the technical architecture, security architecture, agile development techniques and concept definition of the new solution. Your willingness to collaborate with customers, end-users and other development teams is a must to bring this solution forward.
You need to be comfortable to work in a (new) dynamic environment, guide with your expertise, establish standards in your team, share your knowledge, motivate other team members, build consensus, while being open to new ideas and approaches at the same time.

Role Requirements
Degree (Bachelor, Diploma, Master, PhD) in information technology, computer or natural science, engineering or equivalent subject
Good software development and programming skills
High commitment to quality, reliability and a self-motivating style of working
Experience in Scrum based software development
Good spoken and written English and German
Background in foreign trade processes or management is a plus
Capabilities in ABAP, CDS views and FIORI would be helpful

Work Experience

We are looking for promising, talented career starters who are about to graduate or have already successfully completed their studies.
Working and development experience would also be a plus.

WHAT YOU GET FROM US

Success is what you make it. At SAP, we help you make it your own.
A career at SAP can open many doors for you. If you’re searching for a company that’s dedicated to your ideas and individual growth, recognizes you for your unique contributions, fills you with a strong sense of purpose, and provides a fun, flexible and inclusive work environment – apply now.

SAP’S DIVERSITY COMMITMENT

To harness the power of innovation, SAP invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
SAP is committed to the principles of Equal Employment Opportunity and to providing reasonable accommodations to applicants with physical and/or mental disabilities. If you are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team (Americas: Careers@sap.com).
Successful candidates might be required to undergo a background verification with an external vendor.
